Viewing the Infobar

When viewing a program or movie, or after selecting its name, press **INFO** to view more information about the item. Press **INFO** a second time to view a more detailed program description (if available).

When viewing the **Info** screen, press **▲** and **▼** to change to adjacent channels. The information in the Infobar is updated for the displayed channel.

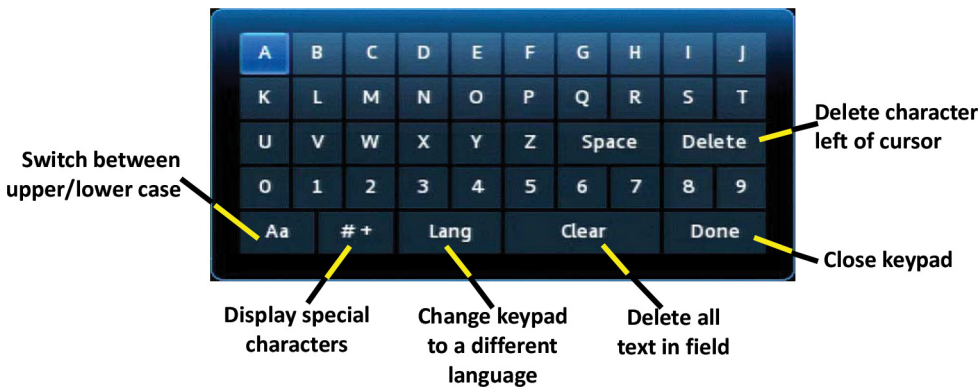

Using your Remote

The action “press” refers to pressing a key on your remote, for example, “press **MENU**.”

The action “select” means to use the ▲, ◀, ▼ and ▶ keys on your remote to navigate to the desired option, which will then be highlighted. You’ll normally *press* **OK** to complete the task.

The keypad is displayed when you’re required to enter non-numeric characters, such as the **Search** function. To enter a character, use the navigation keys to select the character, then press **OK** to add the character to your input text box. Repeat this process until text is complete and then select Done. Press **OK** to complete the entry.

This image describes the functions of the non-character keys on the keypad:

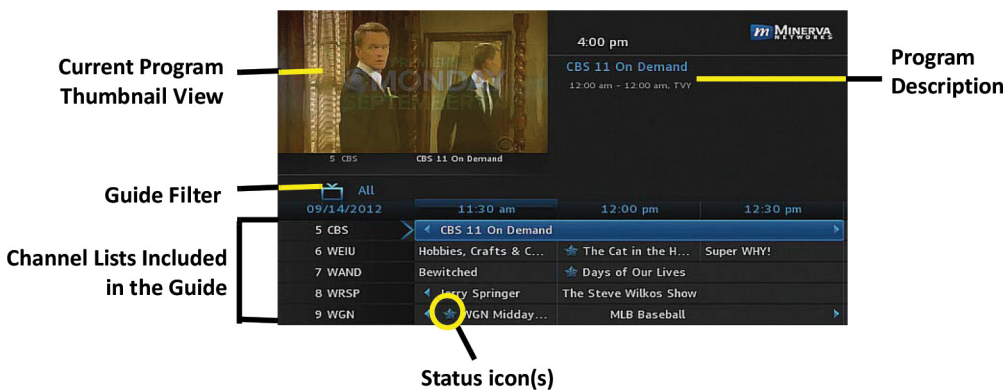

Guide Components

The **Guide** allows you to view live (currently broadcasting) programs and schedule recordings, reminders and autotunes.

Access the **Guide** by pressing the **GUIDE** button on the remote or by selecting  from the set-top box Menubar and then pressing **OK**.

The image below shows the main components of the **Guide**:

The table below describes the meaning of the status icons that may appear before the name of a program in the **Guide**:

	New Episode
	Single-event Recording
	Series Recording — All episodes in the series will be recorded.
	Autotune has been set. The set-top box will automatically change to this program when it starts playing.
	Autotune has been set for the series. The set-top box will automatically change to this program each time an episode in the series starts playing.
	Reminder has been set. A pop-up will appear when the program is about to start.
	Reminder has been set for the series. A pop-up reminder will appear when each episode in the series is about to start.
	High Definition program.
	Program is marked as a favorite.
	Channel is Blocked for viewing.

Scheduling Reminders and Autotunes

A reminder displays a message on the screen to remind you that a program is about to start. A scheduled autotune causes the set-top box to automatically tune to a channel at a scheduled time. You can only set one per program, not both.

To schedule reminders and autotunes:

1. Open the **Guide** application.
2. Select the program that you want to set a reminder or autotune for, then press **OK**.
3. Select **Set Reminder** or **Set Autotune**:

The following examples show when the event is set:

Stop

Returns to live TV.

Recording a Live Program

To record a live program, open the **Guide** application.

Select the program you want to record, then press the **R** (record) button. **R** appears next to the program, as shown below, and the program will be recorded.

Pause a Live Program

The **Pause Live TV** feature allows you to pause a live TV program and resume viewing it from the point in which it was paused at a later time.

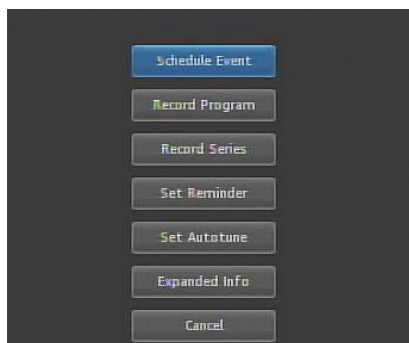

Press **Pause** while watching the program live. Press **Play** to resume playing.

Note: Pause is limited to 60 minutes, at which time programming will resume to live TV.

Scheduling a Recording

To schedule a recording that starts in the future:

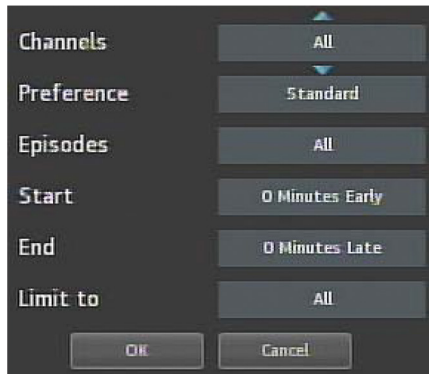

1. Open the **Guide** application.
2. Select the program you want to record, then press **OK**. A list of options appears.
3. Select **Record Program**, then press **OK**. The options close and **R** appears next to the program.

Scheduling a Series Recording

To schedule a series recording:

1. Open the **Guide** application.
2. Select the program you want to record, then press **OK**. A list of options appears.
3. Select **Record Series**, then press **OK**. **Record Series** only appears if the program is a series.
4. Settings include **Channels**, **Preferences**, **Episodes**, **Start**, **End** and **Limit to**.

5. Highlight the setting you want to change, then press **OK**. Press **▲** and **▼** to scroll between options. Press **OK** to accept the value you want to use.
6. When all settings are in place, select **OK**. The series recording is scheduled.

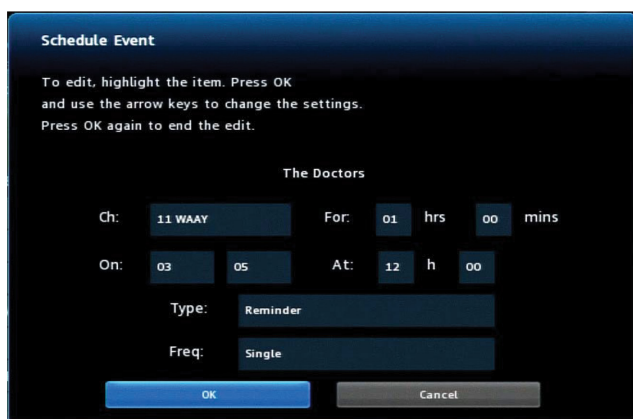

Note: It is suggested to set the Start time **1 Minute Early** and the End time **1 Minute Late**.

10 Scheduling a Time-Based Recording

This type of recording is often used to record repeating programs that aren't part of a series.

To create a time-based recording:

1. Open the **Guide** application.
2. Select the program you want to record, then press **OK**.
3. Select **Schedule Event**, then press **OK**. The Schedule Event screen appears:

4. Press **▶**, **◀**, **▲**, **▼** and **OK** to set appropriate values for Channel (**Ch.**), **For**, **On** and **At**.
5. If **Type** doesn't already indicate **Recording**, select **Type**, then press **OK**. Select **Recording**, then **OK**.
6. Optionally set the **Freq.** value to configure the recording to occur at regular intervals.
7. Press **OK**. The time-based recording is now set.

Viewing a Recorded Program

To view a recorded program:

1. Open the **DVR** application.
2. Select **Recordings**.

Note: The  icon indicates that the item is a Whole Home DVR program that can be watched on every device in your home.

3. Press **►** (over) to move to the recorded programs column. The first column will change to options allowing you to sort your recordings.

4. You can sort your recordings using the **Date**, **Title**, **Channel** or **Viewed/Not** options by selecting the option. Press **OK** and the recordings will sort based on your selection.
5. After selecting a recording, select **Play Recording**. The recording starts playing.

Locking a Recording

By default, old recordings are automatically deleted to make space for new recordings.

To prevent a recording from being automatically deleted:

1. Open the DVR application.
2. Select **Recordings**.
3. Press **►** (over) to move to the listing of recorded programs.
4. Select the program you want to lock, then press **OK**. The **Choose an Action** panel appears.
5. Select **Lock**:

6. Press **OK**. The recording is now locked.

Deleting a Recording

To delete a recording:

1. Open the **DVR** application.
2. Select **Recordings**.
3. Press **►** (over) to move to the pane showing all recorded programs.
4. Select the program you want to delete, then press **OK**.

5. Select **Delete Recording**, then press **OK**.

Note: If you select the folder for recordings from a series, the **Delete All** and **Edit Series Recording** options appear.

Setting Recording Priorities to Handle Conflicts

When a recording scheduling conflict occurs, the program with the highest priority is recorded.

To set the relative priority of recorded programs:

1. Open the **DVR** application.
2. Select **Schedule Priority**, then press **OK**:

12

3. Press **▲** and **▼** to select the recording of interest, then press **OK**.
4. Press **Move Down** or **Move Up** to arrange the priority:

The list is sorted with the highest priority recordings at the top of the list.

MY LIBRARY

My Library shows all your purchased movies and programs. If you subscribe to the Caller ID service, it stores a list of recent calls. You can view and manage messages related to DVR recordings, system announcements or billing alerts.

Using My Library

To use the **My Library** application:

1. Press **MENU** to display the menubar, select , then press **OK**. The **My Library** application opens:

2. Select one of the following content/event categories that you want to view:
 - **Video** displays movies that you recently purchased.
 - **PPV Events** displays programs that you recently purchased.
 - **Pay Per Block** displays the block of time that you recently purchased.
 - **Sports Packages** displays sports packages that you recently purchased.
 - **Reminders** displays a list of future reminder and autotune timers.
 - **Messages** displays messages related to DVR recordings, announcements or billing alerts.
 - **Caller ID** displays a list of information about received calls, such as the name and number of the caller, and the date and time of the call, as shown in this example:

3. Press **►** (over) and then **▲** and **▼** to select an item of interest, then press **OK** to show action options for that item. Select the desired action.

SETTING PREFERENCES

The **Settings** application helps you set certain preferences for your account, such as rental sharing and channel blocking. You will need your PIN to access the **Settings** application.

Setting Preferences

To set your preferences:

1. Open the **Settings** application by selecting the .
2. Enter your PIN.
3. Select **Preferences**.
4. Select the various options and change their values as desired:
 - **Share Rentals:** Allows you to share your rentals with sub-accounts. To modify, select this checkbox, press **OK** to either enable (add a check mark) or disable (remove the check mark).
 - **Channel Blocking:** Turns the **Channel Blocking** feature on or off. To modify, select this checkbox, then press **OK** to either enable (add a checkmark) or disable (remove the checkmark).
 - **Require Login:** Not Applicable
 - **Parental Control:** Enables or disables the **Parental Control** function. To modify, select this checkbox, then press **OK** to either enable (add a check mark) or disable (remove the check mark).

- **Enable Caller ID:** Enables or disables the **Caller ID** feature. To modify, select this checkbox, then press **OK** to either enable (add a check mark) or disable (remove the check mark).
 - **Caller ID Timeout:** Specifies the **Caller ID** timeout value. To modify, select this item, press to scroll to the desired number of seconds you'd like to have the **Caller ID** on your screen, ◀ then ▶ press **OK**.
 - **Theme:** Specifies the skin (or color scheme) to be used by the set-top box interface. This is set by the provider and should not be changed.
 - **Autotune Alert:** Specifies the **Autotune** alert value. To modify, select this item and scroll to the desired number of seconds you'd like to have the set-top box alert you before an **Autotune** occurs, then press **OK**.
3. Select **Submit**, then press **OK**. Your preferences are saved.

Selecting Channels to be Blocked

You can set specific channels to be blocked so that no program on that channel can be viewed, regardless of program rating.

To set blocked channels:

1. Open the **Settings** application by selecting the .
2. Enter your PIN.
3. Select **Preferences**.
4. Select **Edit**, then press **OK**.
5. Select a channel to be blocked, then press **OK**. A lock icon appears to the right of the channel name. Repeat this step until all channels you want blocked have the lock icon. The following image shows three blocked channels:

6. Select **Update**. Your changes are saved.

Setting Parental Control

If **Parental Control** is enabled, you are able to:

- Specify the movie rating and TV rating that corresponds to the “most mature” rating that the movie or TV show can have in order for the sub-account to be able to view it.
- Specify whether or not the sub-account can view movies or TV that have been rated for sexual situations, language, suggestive Dialogue, violence or fantasy violence.

To set **Parental Control**:

1. Open the **Settings** application by selecting the .
2. Enter your PIN.
3. Select **Preferences**.

4. If **Parental Control** isn't enabled, select its checkbox, then **OK**.
5. Select **Users**, then press **OK**.
6. Press **▲** and **▼** to select a user who you want to change, then press **OK**.
7. Press **►** (over) to select **Parental Control**, then press **OK**.
8. Make the following adjustments as desired:
 - **Movie Rating:** Select **Movie Rating**, then press **OK**. Press **◀** or **►** until the desired restriction level appears, then press **OK**:

- **TV Rating:** Similarly, select **TV Rating**, then press **OK**. Press **◀** or **►** until the desired restriction level appears, then press **OK**.
- **Unlock Timeout:** (This setting appears only when editing parental control settings for the Primary user.) Enter the number of minutes, after **Parental Controls** are unlocked, that the **Parental Controls** should be locked (enforced) again. When you are logged in as the primary user, and you attempt to select (in the **Guide** or **On Demand**) a TV program or movie that is locked according to the **Parental Control** settings for the primary user, you are prompted with an option to unlock that item. If you choose to unlock it, you can view the item (that would otherwise be restricted) for the number of minutes you specify in the **Unlock Timeout** setting.

To set the **Unlock Timeout** value, select **Unlock Timeout**, then press **OK**. Press **◀** or **►** until the desired restriction level appears, then press **OK** again.

- If the primary user presses a key on the remote between the time that **Parental Control** is unlocked and the time the timeout expires, then the timeout clock is reset to 0. For example, the **Unlock Timeout** value is 30 and **Parental Control** is unlocked at 8:00 pm. If no buttons are pressed on the remote for 30 minutes, **Parental Control** will be relocked at 8:30 pm. However, if one or more buttons are pressed at 8:15 pm, **Parental Control** is set to re-lock at 8:45 pm.
- The **Unlock Timeout** value doesn't affect the viewing experience of sub-account users. (Sub-account users don't have the option of unlocking parental controls.)
- **Block Unrated:** (This setting appears only when editing parental control settings for the primary user.) If you want to block programs and movies (Live TV and VOD) that don't have an announced rating, or that are rated as NR (not rated), check option **Block Unrated**. To set the **Block Unrated** value, select its checkbox, then press **OK** to either enable (add a check mark) or disable (remove the check mark). While this setting only appears when editing parental control settings for the primary user, sub-account users are also affected. They won't be able to view unrated movies and TV programs.
- Press **►**, **◀**, **▲**, **▼** and **OK** to select the change the check status of the checkboxes for **Sexual Situations**, **Language**, **Suggestive Dialogue**, **Violence**, or **Fantasy Violence** restriction options.

9. Select **Submit**, then press **OK** to save your changes.
